

TECHSTORESys — Complete System Flow

End-to-end overview of how documents, requisitions, stock decisions, procurement, fulfilment, reporting and governance move through the system.

Intake channels

Orderly Room Daily File, Unit Requisitions in-tray and Import document.

Decision gate

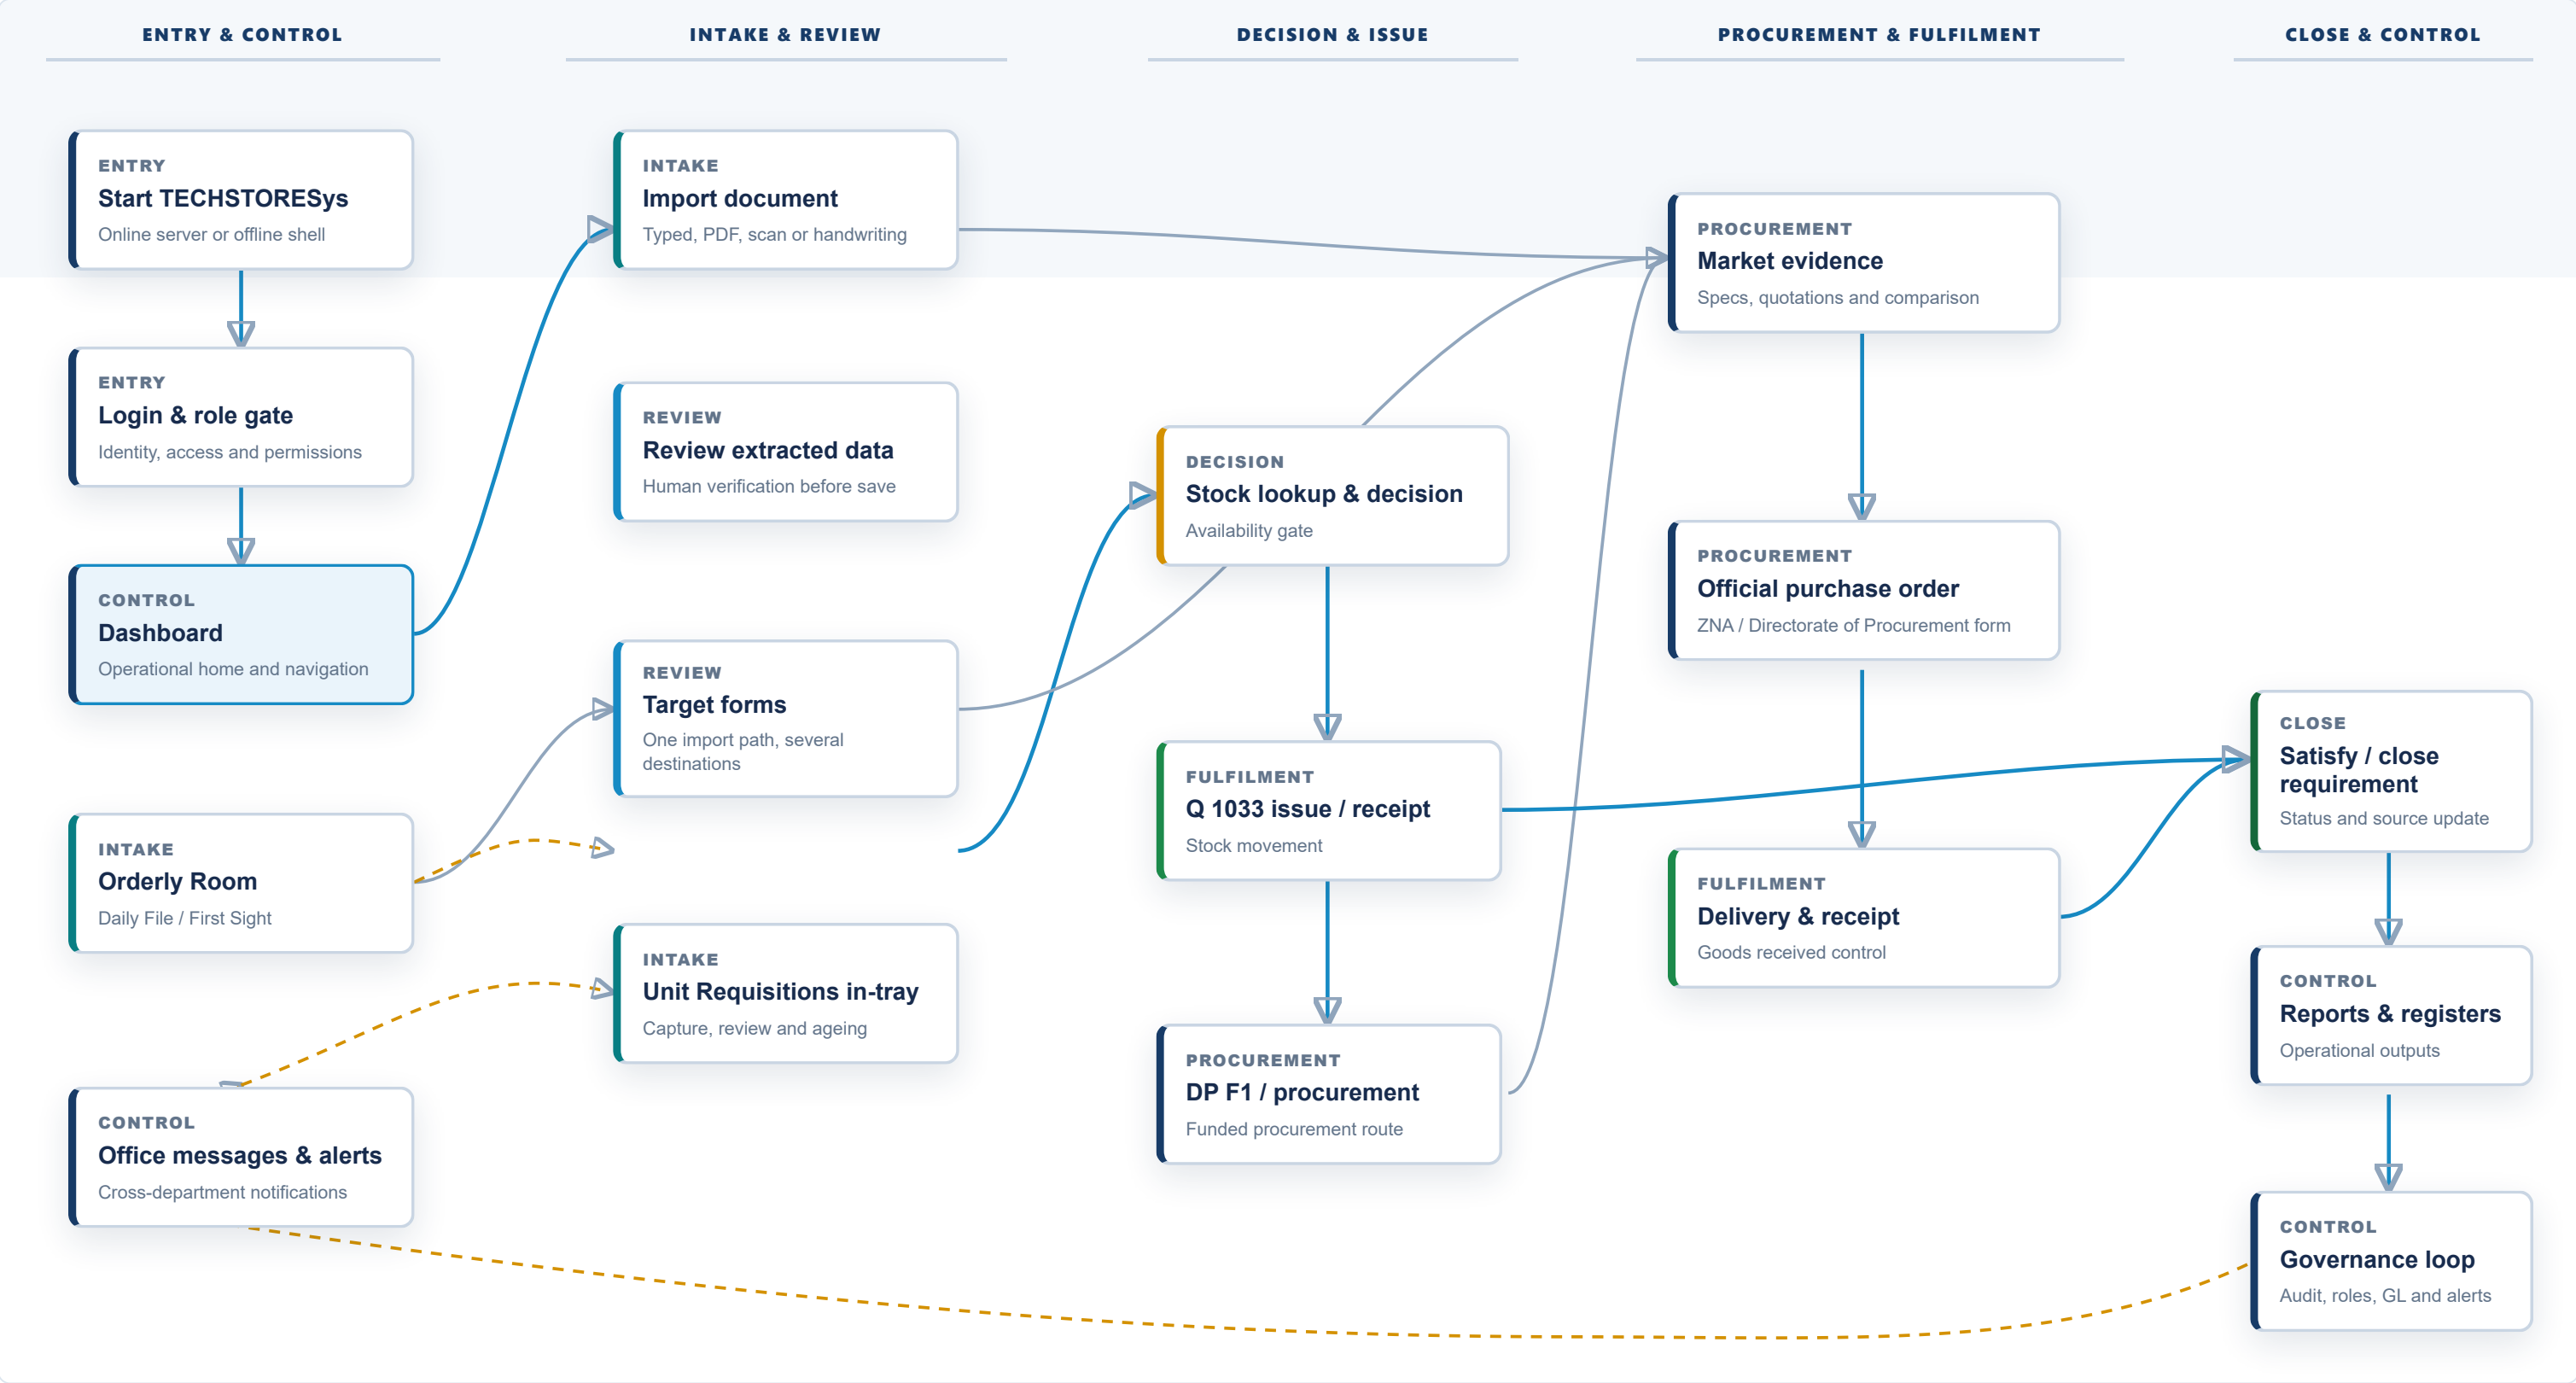

Stock available routes to Q 1033; a shortfall routes to DP F1 and procurement.

Completion path

Purchase order, delivery note, receipt, status close and reporting.

Operational flow

Select a node to view its responsibility. Solid arrows show the main operating path; dashed arrows show mirroring, notification and governance feedback.
